BIDS FOR NEW WILLITS HOSPITAL ARE OPENED

Structure to Be One of Most Complete in Northern Counties. To Cost $25,000.

WILLITS, Sept. 7.—Bds for the construction of the Charles Howard Memorial Hospital in this city were opened yesterday afternoon in San Francisco but the name of the successful bidder is not known at this writing. It is reported that three local contractors submitted bids and several more were expected from outside parties. The committee and architect may take several days to pass on the bids and active construction is expected to start within a month.

The hospital is expected to cost in the neighborhood of $25,000 and will be the finest hospital on the Redwood highway between San Francisco and Eureka.

The site of the hospital is at the brow of a small hill overlooking the highway and valley and is unsurpassed from a sanitary and convenient standpoint. In addition to surgical cases arrangements will be made for the handling of confinement cases, something which is very badly needed in this part of the county.

The town has had the street leading to the hospital graded and sewered and the water connections have also been made. When excavating for the sewer the workmen unearthed an old Indian skeleton and some relics that were buried with it. The Indian shell money and skeleton are now on exhibition in one of the show windows at the Willits Mercantile Co. store.

HOPPICKER CUT DURING AFFRAY IN HOP FIELD

Dispute Over Old Custom of Picking Stringer Precedes Affair

Felix Lahondra, a hoppicker at Ernest Hawn yards, was cut superficially yesterday in a row with a fellow hoppicker named E. H. Whitmer. Both men are strangers here and to each other. They tell conflicting stories as to which was the aggressor.

The dispute seems to have started because one of the men was picking the best bunches of hops in the other's half of the stringer between the hills. The unwritten rule is that each shall pick his half of the stringers only.

Hot words were exchanged, followed by a few blows, and Whitmer drew a pocket knife and cut Lahondra in the side. Ten stitches were taken in the wound. Lahondra is not in any danger.

Whitmer is about 65 years of age, while the other man is considerably younger.

A. P. Brunner was up from his home at San Anselmo this week looking after property interests in this section. Mr. Bunner is a former business man of Ukiah.

TAX RATE IS SET BY COUNTY SUPERVISORS

Reduction of Ten Cents in County Rate and Equal Amount in School Rate Nets Ukiah 15c Reduction

LIST OF SPECIAL SCHOOL TAXES

Ukiah taxpayers will rejoice in a reduction of 15c in their tax rate this year. While the city dads boosted the municipal rate 5c, reductions in the local school taxes and in the county tax rate will bring about the long-awaited downward revision.

The supervisors met last Tuesday and wrestled with the budget the greater part of the day. The rate was finally agreed on at $2.70 outside the incorporated cities and $2.30 inside.

The rate last year was $2.80 outside and $2.40 inside.

The tax rate in Ukiah will be $1.45 city rate, $2.30 county rate and $1.23 for school taxes of various kinds, bringing the total rate to $4.98.

The rate last year was $1.40 city rate, $2.40 county rate and $1.33 school rate, making the total $5.13.

CAMPERS LEAVE FIRE; R. R. CULVERT BURNED

WILLITS, Sept. 7.—The culvert on the Sherwood branch railroad, half way between Willits and Northwestern, was burned last Sunday. Some campers had a fire under the bridge and this started the trouble. The campers, a man and woman, made their escape and no trace of them has been found. The section crew has made temporary repairs so that trains can be run but the regular bridge gang will have to build the new bridge.

George Ryan and family and Mrs. Rose Copsey returned the latter part of last week from a motor trip to the northwest.

Mrs. J. M. Roberts of Santa Rosa, and Mrs. Bevans, of Potter valley, were Ukiah visitors the first of the week. Mrs. Roberts was on her way to her home, following a visit to relatives and friends in Potter valley.

ANDREW HAUN, PIONEER, REPORTED NEAR DEATH

WILLITS, Sept. 7. — Andrew Haun is reported as being in a dying condition due to the infirmities of old age. He is now approaching 90 years of age and has failed steadily since the death of his wife two years ago. Mr. Haun settled in Jackson valley over forty years ago and conducted a sawmill for a great many years in addition to ranching.

Last winter his son, John, brought him to Willits so he could be near a doctor. His daughter, Mrs. Will Woodhead, of Folsom, has been sent for and is expected to arrive today.

Al Malpas and a party of friends from San Francisco, were visiting in Ukiah over the week end.

Winnie and Ray Cox were up from San Francisco the week end for a visit with relatives and friends in Ukiah.

IN ACKNOWLEDGEMENT

The Dispatch this week is indebted to Mr. and Mrs. George Gibson of Potter valley for two of their prime melons, a muskmelon and a watermelon. Also to Mr. and Mrs. Oscar Sanford of Scotts valley and Franz Grothe of this city for some of their finest Bartlett pears.

The fruit was all of the best and the kindness of the donors is most gratefully appreciated.

Mrs. M. H. Iversen accompanied her daughter, Juanita, to Stockton the end of last week. Miss Juanita entered the College of the Pacific as a freshman.

Mrs. Wyckoff and Mrs. Harry Wyckoff, of San Francisco, have been here the past few days visiting friends. Mrs. Wycffok was a resident of Ukiah many years ago when her husband, the late Dr. Wyckoff, was one of Ukiah's physicians. Mrs. Harry Wyckoff was formerly Miss Safa Paine of this city.

HEARING OF PROTESTS POSTPONED IN SONOMA

Bay Bridge Proceedings Held Up Account of Judge's Illness

SANTA ROSA, Sept. 8.—Plans for early hearing of the Golden Gate bridge protests received a set-back yesterday, when word was received that Superior Judge C. J. Luttrell of Siskiyou county will be unable to be here Monday, the date set for the hearing. Judge Luttrell, assigned by the judicial council to hear the Sonoma county protests. can not come to Santa Rosa because of the serious illness of his mother at Yreka.

No other judge is available for assignment here by the judicial council, the message to County Clerk W. S. Coulter said. B. Grant Taylor, acting secretary of the judicial council, advised Coulter that it appeared that a continuance of the hearings would be necessary.

Proponents of, the Golden Gate bridge project sought in the preliminary proceedings to obtain an early hearing, in order that the protests might be disposed of and the organization of the district proceed. When Superior Judge R. L. Thompson set the objections for hearing he declined to hear pleas for a late date on the ground that sufficient time had been given both sides to prepare and that the public good demanded that any obstruction to spanning of the Golden Gate should be removed as early as possible, that the project might move to completion.

According to Coulter, it appears that a continuance of the hearing is now unavoidable. But as the bridge action, being a matter of public convenience, has the right of way over ordinary civil cases, it will probably be set for hearing at the earliest possible dote.

Sam Merk, brother of George Merk of this city, was a visitor here the latter part of last week and the first of this. Mr. Merk recently sold his newspaper at Burlingame and is attending to real estate interests in the peninsula section.

TO BUILD SMALL MILL AND RESUME ACTIVITY

Remaining Timber at Northwestern, Totaling 1,500,000 Feet, to Be Cut and Marketed

WILLITS, Sept. 7.—Duane Bittenbender has entered into a contract with the Northwestern Redwood Co. to cut the remaining timber just this side of the old mill. It is estimated that there is still 1,500,000 feet, mostly choice redwood, and it is very conveniently located to the new mill which will be a short distance below the old one.

The new mill will have a 15,000 feet daily capacity and will be much more economical to run than the big mill which required a large force. The new mill will have two 60-inch circular saws, one above and one below, meeting in the center, and everything will be run by electricity, the power being furnished by the Central Mendocino County Power Co.

When the Northwestern mill shut down last year they had about 10,000,000 feet of lumber stacked in the Willits yard but this has practically all been sold and in order to fill orders the Northwestern Co. has been receiving lumber from Fort Bragg and Humboldt county. All special orders will now be turned over to the new mill and very little outside lumber will have to be purchased.

The new mill will be cutting lumber inside of a month and expects to run steady all winter.

The Rambler

Boulevard stop signs were put up this week at the school yard corner. Thank you, Mr. Handy and Mr. Cleland. You have made yourselves directly responsible for saving someone's life, not to mention damage to automobiles. And, as school starts next week, the little tots have a secure crossing.

You remember that when some of his advisers wanted Lincoln to relieve Grant of his command, the president replied: "I cannot relieve him. He fights." That is why the Rambler likes people who do things. And what a joy it is to a community, or an organization, or a family,—to have some one in it who gets things done. That, too, is why Mrs. Toles has such a place in the hearts of the people of Ukiah.

Of course, there many in positions of responsibility who do their best, but, unfortunately their best when compared with what others could do in the same position is only mediocre. Under such circumstances the community suffers. It is an old story that one cannot put a square peg in a round hole.

* * * * *

Last week I attended a special meeting of Ukiah's leading civic organization. It was held about half past nine at night at the packing house of the American Fruit Growers. And this meeting called to my mind again just how remarkable this civic organization really is. Of course, it has regular meetings, and they are important, but the real business is always transacted at special meetings. No member has advance notice of these meetings. They are not governed by hour or weather. They may be called at noon or at midnight, or on a pleasant day in spring, or a stormy winter night. Neither are these special meetings held in a pleasant room, with comfortable chairs.

After the meeting there is no chronicle about the decorations and the refreshments, often little or no mention. And yet the members are loyal. Most of them never miss a meeting. They are notified by the blowing of a siren, and, in the small hours of the morning when you and I turn over in our comfortable beds, wonder for a moment what it is all about and then sleep on, the members of this organization are instantly off and on time at the meeting. No,—they are not paid, excepting two of their members who give their entire time. And yet they serve, year after year, with a sense of duty and willingness to sacrifice difficult to equal. Yes, the leading civic organization of Ukiah is the volunteer fire department.

Today I received a check from a man who might just as well have saved time and signed his name with a cross. At least I could have understood what he was trying to do.

Facts are facts, and should they be bottled up forever because they might upset someone?

* * * * *

What do you suppose would happen if all persons were compelled to deal solely in goods that were exactly what they are represented to be?

* * * * *

With the fall opening of our schools those who take a deep interest in the quality and quantity of the instruction are giving particular consideration to our educational system. I quote the Lakeport Press and Record:

"While our county displays deep interest in its school system, it is a good idea to keep in mind the fact that it can constantly be improved. Schools are something that cannot be too good, and county-wide cooperation to make each succeeding term more profitable to our boys and girls is among the most valuable work our citizens can engage in. If we permit our end of the national educational system to drag it can only deprive those who are coming on to conduct the affairs of the community of privileges to which they are entitled, regardless of the taxable value of their parents' property. The community owes every one of its boys and girls an opportunity to attend a first-class school. If it is not first-class then the community is actually cheating the boys and girls of their rights."

Sacco and Vanzetti have finally suffered the extreme penalty. They were in the shadow of death for seven years. It is rather difficult to defend our American administration of justice when so many avenues are open to a defendant that with a skillful lawyer and a large defense fund there is a period of seven years between the date of the crime and the excution. Sure and speedy punishment is the best cure for crime.

I have just been reading of Kristina, daughter of Gustavus Adolphus, la regina nomada, the travelling queen. The meaningless emptiness of her life is explained in these words: "True happiness is absolutely unknown to the person who lives in constant concern for his own ego. All work for personal development becomes meaningless if the new powers developing are not used in work for the happiness of others. Herein lies one of the great secrets of civilized community: no one may break the law of interdependence."

* * * * *

We hear much these days about service. Please remember that private enterprise is not in business for its health. The hymns to "service" that are sung so loudly deceive no steady-eyed observer.

* * * * *

There is no internal problem of greater moment than the rehabilitation of our forests. It has been hopefully begun but needs strong and intelligent support.

"Reforestation is of vast importance to the United States as a whole. Our forests furnish the basis of one of our greatest industries. They conserve water supplies for irrigation and power; they are helpful in preventing floods and add to the scenic beauty of the country. They provide a home for fowl and wild beast. They offer a place for wholesome recreation. From every standpoint, maintenance of our forests should be encouraged."

* * * * *

There has been a drastic curtailment of building activity in the larger metropolitan areas during the past twelve months as indicated by building permits issued in 88 cities of the West.

"The Los Angeles metropolitan area, embracing 14 municipalities, showed a decline of 33 per cent; the San Francisco bay region, embracing 13 municipalities showed a decline of 46 per cent; and Portland a decline of 67 per cent in value of permits issued during July, 1927, as compared with July, 1926. Building permits issued in 20 principal cities of the district during July were 30 per cent smaller in value than during July a year ago."

Automobile output for the month of July and the early weeks of August was considerably below that of the corresponding period of last year.

COAST NOTES

(Mendocino Beacon)

Pt. Arena Rebuilding

Point Arena is rapidly rebuilding the structures destroyed by the recent fire. Most of the new buildings will be of concrete, thus obviating much danger of a repetition of the recent fire.

Phil Lobree has nearly completed the erection of a building for his brother-in-law, Fred Slack, to be used as a billiard parlor and soft drink parlor. The new postoffice will be constructed of brick and will occupy the former site.

Henry Haskell has put up a frame building of which he will occupy a part and the other section will be used by his wife as a store.

The Point Arena Mercantile Company have plans for a large concrete building to house their business in the future. Henry Halliday will also erect a modern concrete building on a new lot he secured in the burned district.

Kills Sheep-Killing Bear

Arnie Ornbaun, on the Elk Ridge ranch, succeeded in treeing another sheep-killing bear that weighed over 250 pounds.

The bear made several kills and Mr. Ornbaun has made several attempts to capture it, but this time of the year it is very hard to pick up an old track.

Friday morning he struck a track not far from his house. He went back for his dogs, which lost no time in getting the track straightened out and the hunt was on. After the bear was jumped, he ran about two and a half hours and then went up a tree.

Mr. Ornbaun has three good dogs of his own, besides he is using B. L. Elliott's hound, Eli, and a shepherd belonging to Will Oppenlander. The latter dog had not returned to the ranch at dark Friday night and may have treed another varmint.

Death of W. F. Vallandigham

POINT ARENA, Sept. 2.—W. F. Vallandigham died here on August 27, 1927. He was born in Ohio in 1857. He spent his boyhood days in his native town, learned the printing trade when he was sixteen years old and followed that work for the rest of his life.

He came to Point Arena 22 years ago and worked in the Record office under Mr. Hanen. Later he bought the paper and has been our local editor for several years until the fire of last June, when his building was burned and on account of failing health, no effort was made to start again.

He leaves a wife and one daughter, Mary.

Mr. Vallandigham was a kind neighbor and retained the frienship of all who knew him.

His oldest brother came from Los Angeles to attend the funeral, which was held Wednesday morning at 10 o'clock.

Accidents

C. M. Guyer, employed in the mill at Caspar, met with a painful accident Tuesday. While working around the edger he sliced off the end of his left thumb. He came down to Mendocino the same evening and had his wound dressed and the injured member is healing all right.

P. Mennescucci, workman at Boyles camp, had a bad fall the first of the week when he struck his head on an iron rail and cut a long gash in his scalp. His condition required the services of a physician.

Louie Anderson, while working with a block and tackle out at Valentine camp last Monday, got his hand caught in the wire, and before he could extricate it, lost the end of the thumb of his left hand.

Narrow Escape for Hunters

While returning from a hunting trip last Friday, Herb Bishop of Pt. Arena came near being shot when the gun carried by the man just behind him was accidentally discharged. Herb was badly powder burned on the neck and shoulders.

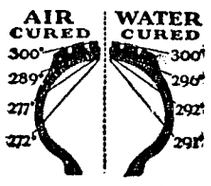
Compare these two diagrams, and you see how Water Curing gives uniform heat, uniform cure throughout every Silvertown. Curing from both sides makes them tough clear through.



Why *do women choose Silvertowns?*

Do women buy tires? They certainly do. And they show a remarkable preference for Silvertowns—sold by our store.

First—they buy Silvertowns here, because women are always keen judges of value. They know how to weigh quality and price—and get the most for their money.

But with tires—one more thing is vital. Women must have dependability—and that means freedom from tire trouble.

Courteous treatment—at the time of the sale—courteous service afterwards—all combine to make our store headquarters for women drivers.

Conversation at Its Best

Great talk is like a song, like a glory in the heavens. It lives, it goes—lives with high beauty because it will go. The man who realizes himself in talk with a friend—there is a purity in him, he is generous, for this realizing together, having its own beauty, is its own end. To see an idea in a man's eyes before it has shaped for his voice, to intercept the unspoken, meeting it with what yourself would not have spoken, this is a creation with consciousness itself.—From "The Road to the Temple," by Susan Glaspell.

Famous French Engineer

Ferdinand De Lesseps, who lived from 1805 to 1894, was the famous French engineer who designed and superintended the construction of the Suez canal which was completed between the years 1859 and 1869. His scheme for cutting a canal across the isthmus of Panama led to a financial collapse for which De Lesseps was held legally responsible. In his old age he was condemned to a term of imprisonment, which, however, was not enforced.

Desert Cannibalism

A teacher in Indiana told her primary class about the life of the desert children; their games, clothing, food, etc. One article of food they had for dinner was roast kid. The next day she asked class members to tell what they had learned about the children of the desert. The first hand raised was not that of a red-headed boy on the back seat but the bright-eyed boy with raven locks, sitting near the front who proudly answered, "They had roasted boy for dinner."

Spenser

Like most poets, he felt the impulse of the day and hour. His poems reflect the color of the sky over his head, blue and somber by turns. His piety, though at all times sincere, was more or less apparent according to the seasons—more or less engrossing according as he felt the blessings or buffets of fortune. Yet above the span of his checkered career and alternating quest after earthly joy and heavenly bliss, an indubitable idealism is spread like the rainbow arching over a landscape beaten by the rain and illumined by the sun.—Emile Legouis, in "Spenser."

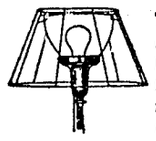
New life new color for your living room

A modern principle in floor and table lamp construction improves home lighting

Soft, mellow, shadowless light evenly spread throughout the room—ample light for the whole family to read, write, sew or play cards—light that brings out the rich colors of draperies and furniture—light that is kind to your family's eyes.

Such lighting is now possible through a new principle in floor and table lamp construction. This new principle banishes the harmful gloom and glare that is so common with ordinary lamps.

The New Principle



The silk shade rests on an inverted glass reflector which surrounds the bulb so that direct rays from the electric lamp can never strike you in the eyes. It's this reflector that saves your eyes and diffuses the light. The result is a single floor or table lamp that really lights a room.

Our representative would gladly discuss home lighting with you. He'll tell you about the beautiful new floor and table lamps that are designed after this new principle of lighting.

"Whereas our beloved member, Theresa V. Ray, has in the cause of humanity and for the good of us all established a hospital in our city, we, the members of the Kosmos club, in order to show our appreciation do this day order two trees to be planted in the grounds which will add beauty to the building and give comfort to those whose lot it is to suffer within.

And may they be a lasting reminder to our member that she has with her our prayers and good wishes for every success in her wonderful work."

The trees will be planted by Mr. Carl Purdy and will be of Mrs. Theresa Ray's own choice.

CAREFUL FITTING SERVICE

Careful fitting, important at all ages, is particularly important to children. The tiny bones are easily molded. The tender ligaments, tendons and muscles give way readily. The wrong size or width is sure to cause trouble—perhaps not immediately noticeable in the feet, but certain to affect the child's general health.

Here your children will receive careful attention. Knowledge of their needs and a complete stock make possible a promise of just the right size and width. And remember, a correctly fitted shoe wears longer.

Literary Fame Came Slowly to Johnson

Samuel Johnson gained little money when he compiled an English dictionary, but the work served to make his reputation secure. He had been in London ten years, living obscurely as a hack writer and slowly winning a reputation when he was given a chance to prepare the dictionary, for which he was to receive $4,500.

It took him seven years to complete the tremendous work and he had to pay several assistants. The work is remembered not because of its merits, but largely because of Johnson's letter to the end of Chesterfield, who had rebuffed the editor until he heard the dictionary was nearing completion and then hoped to be regarded as one of the benefactors of the scholar.

Upon the publication of the dictionary, Johnson was given recognition as the greatest living figure in English literature. Fielding was dead, Richardson was living in retirement, Gibbon was in Switzerland, Gray and Cowper were publishing little. Johnson was hailed as England's greatest scholar. The honor had been slow in coming, for 18 years had passed since he had left Lichfield to make his fortune in London.—Kansas City Star.

Famous "Last" Names on Pages of History

"Last of the Fathers" was a title given by the Latin church to St. Bernard, who lived from 1091 to 1153. "Last of the Goths" was the title given to Roderick, the thirty-fourth and last of the Visigothic line of kings, who filled the throne of Spain from 414 to 711. To Philipoemen, who lived from 253 to 183 B. C., a native of Arcadia, was given the appellation "Last of the Greeks"; and he was the last really great and successful commander of the ancient Greeks. "Last of the Mohicans" is the title of Cooper's novel of the same name, under which title the Indian chief Uncas is personated. The general Aetius has been called the "Last of the Romans." He checked the first invasion of Attila by the relief of Orleans in Gaul, modern France, in the year 450 A. D. With his death, which occurred in 454, the last support of the western empire fell.

Sesquipedalian Words

Mark Twain was not the only person to find amusement in the German language. A foreigner thus accounts for the deliberation with which the negotiations held at Locarno were carried on.

"Our interlocutors cannot end their explanations," said this foreigner. "With the best will in the world they cannot pronounce rapidly such words as this: Antialkoholcongressmitgliederverzeichnissesdruckkostenvoranschlagprufungscommissionsversammlungeinladungskarten."

This little word means "Invitation cards for the meeting of the commission for verifying the accounts of the expenses of printing the list of members of the anti-alcoholic congress."

Truth at Any Price

Each man should learn what is within him, that he may strive to mend; he must be taught what is without him, that he may be kind to others. It can never be wrong to tell him the truth; for, in his disputable state, weaving as he goes his theory of life, steering himself, cheering or reproving others, all facts are of the first importance to his conduct; and even if a fact shall discourage or corrupt him it is still best that he should know it, for it is in this world as it is, and not in a world made easy by educational suppression, that he must win his way to shame or glory. —Robert Louis Stevenson.

Well Foretells Weather

In eastern Oregon is an interesting well that not only gives supplies of good water but acts as a sort of barometer to tell the approach of storms or changes in the weather. From 12 to 24 hours before a storm, it "exhales" a current of air. The draft increases as the storm approaches, sometimes reaching the intensity of a whistling, roaring jet and shooting up a mist of water with it.—Popular Mechanics Magazine.

The Kiss in History

Kisses between men were common in England until the Seventeenth century. Medieval knights used to kiss each other before they began jousting, as modern heavyweights shake hands. Pages in France used to kiss articles they were given to deliver, both when they received them from the hands of senders and just before they delivered them to recipients, as a sign of honor.

Geological Wonder

Juniper mountain, 30 miles west of Craig, Colo., is a geological wonder. The United States survey says that it is the deepest mountain on the western hemisphere. This means that the bottom of Juniper is buried in the earth deeper than any other on this continent. It is walled with rock, and is one of the outstanding sights in the region reached from Craig.

Plea for Brotherhood

What a great and glorious world this might be if we always kept the attitude toward one another which prevails in the hour of flood and fire and earthquake. Oh! The pity of it that we wait for some colossal disaster to awake us to the real spirit of universal love.—Ella Wheeler Wilcox.

WHEN I WAS TWENTY-ONE

BY JOSEPH KAYE

At 21—Rudolph Friml Had Abandoned His Ambition to Be a Barber.

AT THE age of twenty-one I was in America, touring with Kubelik, the famous violinist, as a concert pianist. By that time I had settled regretfully into a musical career. Previously music was the subject I most detested. My parents, in Bohemia, made me take up piano study and even they got the idea in an indirect way.

It happened that my father was very fond of the harmonica and one winter's day he went into town from the village where we lived, to buy a load of coal for the stove in our cottage. While he was there he cast his eye upon an old piano in a store window and calmly went in and bought it—with the money he should have spent on the coal.

There was music when my father arrived home, but the piano remained and so, to get some use out of it, my mother arranged that I should be given music lessons.

After this I resorted to everything I could think of to get out of piano playing. First, I was determined to be a car conductor, which seemed to me a more manly business; then, when that failed to move my parents, I told them I wanted to be a barber, being fascinated by the various perfumes that emanated from the shop of our local hairdresser.

Nothing prevailed, however, and I was forced to make such good progress at the piano that I was sent to the Prague Conservatory of Music, where I at once struck up a close friendship with Kubelik, primarily because we were both wofully thin—so thin that the military authorities gladly excused us from service.—Rudolph Friml.

TODAY—Rudolph Friml is the successor to Victor Herbert in the field of operetta. Never overfond of the life of a professional pianist, Friml gravitated, when he found himself in the gay atmosphere of Broadway, into writing operettas. His first, "The Firefly," scored a great success, and he has been writing successes ever since. His "Rose-Marie," was one of the biggest musical hits in years.

SUCH A BORE

"On being offered $70,000,000 for one of his properties," we read, "Mr. Mellon replied, 'It's a good price, but I don't care to be bothered reinvesting $70,000,000.'"

That has frequently been the objection in our own case. "No," we say quietly but firmly, "your proposition is interesting, but really we prefer not to have the bother of rehandling and reinvesting $50,000,000 or $60,000,000; it cuts into our golf so."—New Haven Register.

FIRE DESTROYS BARN AND SILOS TUESDAY

Omar Bates, Well Known Covelo Rancher, Sustains Heavy Loss in Buildings and Equipment

OTHER NEWS OF ROUND VALLEY

COVELO, Sept. 7.—Yesterday afternoon, a very destructive fire occurred on the Omar Bates ranch, south of town, by which Mr. Bates lost a large barn, two silos, one filled, 80 ton of hay, the silo cutter, a wagon and some other tools and implements. Mr. Bates and a crew of men were finishing cutting the last crop of hay and blowing it into the barn. The fire was discovered and all hands worked desperately, but the gale-like wind blowing at that time rendered it impossible to stop the spread of the flames. Mr. Bates carries insurance on the barn and hay, but the silos were uninsured. The cause of the fire is not exactly known. It is thought it either caught from a spark from the exhaust of the engine or from a rock running through the cutter. Mr. and Mrs. Bates are very appreciative of the efforts of their friends and the public in general in trying to check the flames. Those who were first on hand and led in the fighting were Charles Rice, Tod Hurt, J. B. Bellatti, Geo. Goforth, Harold Long, and Mr. Ruch.

Myrtle Goforth Married

Miss Myrtle Goforth, of Covelo, and Thomas Brown of Ukiah, were married August 29, at Santa Rosa. The bride is the youngest daughter of Mr. and Mrs. Will Goforth of this place, has lived here all her life, and has many friends. Mr. Brown is also favorably known here. The community is wishing these estimable young people a long and happy married life. Mr. and Mrs. Brown will make their home in Ukiah.

Reckless Drivers Fined

As a result of a trial in Justice Nash's court last week, Tom Hoaglin was found guilty of reckless driving and sentenced to a fine of $40. He was placed on probation for one year and prohibited from driving a car for that period. The trial was the outcome of the accused carelessly running a machine against a horse driven by Mrs. Eda Webster on the Reservation creek bridge, causing the horse to twist and back the buggy against the bridge rail, breaking two wheels and only by the merest chance did Mrs. Webster escape serious injury.

The Ladies' Aid of the Reservation M. E. church held their final meeting before hoppicking two weeks ago. It was an all day meeting with a chicken dinner and all the trimmings. There was a full attendance. They tied two comforters. Mrs. Arthur and daughter of Sacramento, were guests.

Miss Cynthia Crane, of St. Louis, is here visiting her cousin, Mrs. Mary Clark, at Reservation headquarters. This is Miss Crane's first visit to California and the ladies had never met.

Little Miss Barbara White is at home again, after spending the summer in the mountains with her maternal grandmothor and other relatives.

Miss Lena Yates began teaching at Poonkiny August 15.

Miss Eva Dunlap is teaching near Cloverdale, beginning last week. This is the same school that Miss Dunlap's grandmother, Mrs. Cummins, taught when a girl.

Mr. Head, chief engineer of the Pacific Telephone Co., has been here superintending the metalizing of the company's wires. He returned to San Francisco last week.

Leonard Henderson, who has been working for a relative at Yorkville during the summer, will remain for the winter, attend school there and continue the job on the ranch out of school hours.

Mrs. Rice, who spent a portion of the summer here with her son, Charles Rice and family and her daughter, Mrs. Bruce Henderson, has returned to her home in Sacramento valley.

District Superintendent L. L. Loufburrow, of the Redwood-Shasta district of M. E. church, visited the Round Valley Mission a short time ago. A result of the congregational meeting held at that time was the request for the return of the pastor, Rev. Len Schillinger.

Mr. and Mrs. Frank Zeek and family motored up from Cloverdale Saturday for a week's visit with Mr. Zeek's parents and other relatives. Their many friends are indeed glad to see them.

Mr. and Mrs. Joe Hurt and little daughter, Colleen, and Mrs. Percy Redwine motored to Sacramento valley Sunday to visit for a few days at the home of Mrs. Redwine's parents, Mr. and Mrs. Marshall Spurlock. Little Anita Louis Hurt remained with her grandmother, Mrs. Frank Goforth.

Truman Lowry and family returned Sunday from a two weeks' visit with relatives in Humboldt county.

Mr. and Mrs. J. B. Bellatti left Friday for a short motor and camping trip to Lane's Flat. They will be joined there by the Kildale and Dolfini families and all enjoy the outing together for a few days.

Mr. and Mrs. George Goforth and daughter, Miss Margaret Perkins, returned last week from a business and pleasure trip to San Francisco.

Mrs. G. A. Lippert and daughters, Misses Alice and Eleanor Lippert, of Appleton, Minn. and son Wilbert, of Los Angeles left this (Wednesday) morning, returning to their homes after a ten days' visit with their son and brother, Rev. Lippert, and family. Rev. and Mrs. Lippert and little son accompanied them as far as San Francisco. The party went by motor.

Frank Nickles, local telephone lineman, has returned to his home in Santa Cruz, and will accompany his mother on a visit to relatives and friends in Kansas City.

Harold Goforth's little son is very ill at this writing with an attack of the mumps. The little fellow is making a brave fight and it is hoped he will recover.

Mr. and Mrs. Lester Fitzhugh and son returned Saturday from a two months' camping sojourn in the mountains. They missed a time of strenuously warm weather in the valley and are looking fine and fit.

Advertising a Sale!

YOU don't leave your rig in the middle of the road and go to a fence-post to read a sale bill do you? Then don't expect the other fellow to do it.

Put an ad in this paper, then, regardless of the weather, the fellow you want to reach reads your announcements while seated at his fireside.

If he is a prospective buyer you'll have him at your sale. One extra buyer often pays the entire expense of the ad, and it's a poor ad that won't pull that buyer.

An ad in this paper reaches the people you are after.

Bills may be a necessity, but the ad is the thing that does the business.

Don't think of having a special sale without using advertising space in this paper.

TROUT REARING ENTERPRISE AT CLOVERDALE BIG SUCCESS

Club Members Carefully Guard Young German Browns From Enemies

(Santa Rosa Democrat)

The time is fast approaching when many of us, who have proclaimed that the Russian river will become an anglers' paradise, will see the dawn of the new day.

Hundreds of thousands of fish that will live and multiply in the Russian river are now being reared to stock the wonderful stream, so that it will really become a lure for anglers. This has been a dream of years.

Yesterday I talked with several sportsmen from Cloverdale, where the best brown trout rearing pond is located, and the enthusiasm they radiated was infectious.

Cloverdale is the headquarters of the northern Sonoma county fish and game protective association, which yesterday sent out the following statement:

ENTERPRISE SUCCESS

"E. E. McPherson, president of the association, says that the 200,000 German brown trout in the ponds, on the fringe of Russian river, a half-mile east of Cloverdale, are growing nicely and indications point to the success of the enterprise. We have the promise of another consignment of 200,000 brown trout, which will also be placed in these rearing ponds.

"Much praise for the successful rearing of these trout is due to the untiring energy of George E. Brush, who has charge of their care and feeding. Many snakes have been killed when trying to catch the fish. Kingfishers have been shot while trying the same game, and, lately, about 30 'hard mouth' which had succeeded in entering the rearing ponds, were taken out with a seine sent to Brush by Game Warden Dave Dondero, who cares for the wild life of Lake county.

"We are greatly pleased to note that Henry Lencioni, and Harley Groves, game wardens of Sonoma and adjoining counties, have been tireless in their advice and help in making this a successful attempt to rear said fish.

"When these trout are about four to five inches in length, they will be allowed to enter the waters of the Russian river, and here is where all the sportsmen of the state are interested. The fish are theirs, if they can catch them.

"So far the mortality is slight and we feel that we are justified in saying that we will make a success of rearing young trout in the river near Cloverdale.

"Everyone is invited to come to Cloverdale rearing ponds and watch these brown beauties grow and fight for their share of the food put out daily for them. Their principal food is ground beef hearts and you would enjoy seeing them hurtle for their food.

"The association is composed of more than 300 members, whose dues are $2.00 each. This association under the leadership of McPherson, has done much for the preservation of wild game of every kind and much praise is due him.

"Anyone inclined to violate the game laws in or about the northern end of Sonoma county should remember that over 300 regular sportsmen are watching for infractions of the state game laws and should not be surprised if they are interviewed by one of the above game wardens.

"Be a good sport and when you come to this vicinity with your gun or rod you will find a good quantity of game in waiting. Help us protect the wild life."

REDWOOD VALLEY

REDWOOD VALLEY, Sept. 7.—F. DeCarli took possesion of the Thomas ranch last week. S. Holliday, who was on the ranch, moved to the Kinsler place.

Mr. and Mrs. Geo. Stevens returned the latter part of last week from a month's vacation. As Mrs. Stevens was in poor health the first ten days were spent in Oakland, where she was under a physician's care. Then accompanied by Mr. and Mrs. Beech the Stevens motored to Long Beach and spent the remainder of their vacation there and at nearby points, visiting Mrs. Stevens two sons.

The Rev. Elbert Holland used as his text Sunday night "Remember Lot's Wife." He gave a very helpful discourse on the tendencies of the present time.

Next Sunday night the Rev. Spicer of the Baptist church will be with us. Come.

Clifford Smith finished hoppicking Tuesday afternoon.

CAR SMASRES WAY INTO RESTAURANT AT WILLITS

Driver's Mistake in Gears Causes Spectacular Crash Sunday

WILLITS, Sept. 6.—Sunday morning a very pecularlar accident took place here. A San Francisco couple who were driving a Studebaker six parked their car exactly in front of the Crystal cafe and went in to get their breakfast. When they finished the woman took the wheel and intended to reverse. Instead of reversing she shifted the gear to second and then stepped on the gas. The car made a lunge forward, entered the front door and took it and a row of tables before it and piled them all up against the partition to the kitchen. Broken glass, chinaware, catsup and sugar were scattered all over the floor.

Several people were eating but they all happened to be at the side tables except Tom McNamer, who occupied one of the rear tables. Tom was nearly scared to death and his friends are saying some unkind things about him. The waitress, Mrs. Lilly Peterson, also had a close call but managed to duck between two side tables.

In a few minutes a large crowd collected and the car was pushed back into the street. It was not damaged—not even scratched.

Carpenters were put to work at once repairing the front of the building and by night it was ready for the painter. The city couple then paid for all of the damages and went on their way rejoicing.

MRS. MARY McPEAK DIES SUDDENLY AT STA. ROSA

Pioneer Woman of Willits Answers Last Call While on Visit to Sonoma Relative

WILLITS, Sept. 9.—Mrs. Mary McPeak died very suddenly at Santa Rosa Tuesday morning, September 6. She left here last Friday for a visit with her sister and appeared to be in good health.

Mary Norris was born in Sonoma county, April 16, 1852. She married Eugene McPeak 57 years ago and about 40 years ago they moved to this valley and purchased what is now known as the Walnut Grove ranch, three miles southeast of Willits, on which the dam of the Willits water system is now located.

They sold the ranch about 15 years ago and moved to town. In 1920 they celebrated their golden wedding and the Masons and O. E. S. gave them a great party and reception in honor of the event et the hall.

Three years ago Mr. McPeak died and she has been failing steadily ever since for they were a most devoted couple.

The remains were brought here for burial and the funeral was held at the Methodist church yesterday afternoon, Rev. A. H. McKellup officiating. The deceased was a charter member of Willits Chapter, O. E. S., and also of the Rebekahs, and both lodges attended the sad ceremonies in a body.

POINT ARENA TO HOLD A DAIRYMEN'S PICNIC

Plans are being contemplated by the Point Arena farm center for the second anual dairymen's picnic and Jersey stock show to be held in Stornetta's grove at Manchester on Saturday, September 17.

The dairymen's picnic and Jersey stock show was inaugurated a year ago with the view of providing an opportunity for bringing high grade dairy stock together for the purpose of making a study of good dairy cows and such problems as pertain to good dairy management. In this connection it was hoped to make the event a social one as well as educational. In 1926 an excellent display of dairy cows was had and much valuable information disseminated to the dairymen of the county.

It is planned to have even a better show this year. In connection with the stock show a dairy judging demonstration will be conducted by Professor W. M. Regan of the University of California. This feature should be of particular interest to all concerned in the dairy game.

A free barbecue and coffee will be served. Speaking, music, and other features have been provided for the entertainment of the gathering. All dairymen of the county and others are invited to attend.

ASSISTING INVESTIGATION OF FIRE ON AUGUST 13

"Buddy" Haswell is in town this week looking after the insurance interests of Mrs. Ida Lindstrom and Berkeley Haswell whose property was destroyed in the fire which consumed the home of Mrs. Pearl Sturtevant, Saturday evening, August 13. Representatives from the Board of Fire Underwriters have gone over the field this week with Buddy Haswell. Charred remnants of articles at first reported missing from the home have been found.

Firemen who responded to the call when the Sturtevant home was destroyed are confident that the fire was of incendiary origin. Ukiah has had several fires within the past few weeks the origin of which has not been determined. The Board of Fire Underwriters, it is understood, will keep a man on the job, until the cause of the fires is found or a report made that such causes cannot be located.

Mrs. Ida Lindstrom and Berkeley Haswell were insured to the amount of $2500 with the Fidelity Phoenix Insurance Company. The payment of this amount has been withheld pending an investigation. Berkeley Haswell and Buddy Haswell left Ukiah in the spring. They are at present located at Hollywood. Mrs. Ida Lindstrom spent the summer in Lake county. As soon as the matter of insurance is settled Mrs. Lindstrom will go to Los Angeles to make her home with the Haswells.

FOREST FIRE RAGING AT IRMULCO YESTERDAY

WILLITS, Sept. 8.—Fire broke out near Camp 10, in the vicinity of Irmulco, this afternoon. A big crew of fire fighters is being rushed to the scene by the Northwestern Redwood Co. to prevent the fire's destroying the buildings at Irmulco, some of which are very valuable.

Camp 10 is not a great distance from Irmulco and the heavy northwesterly wind was carrying the flames toward Irmulco at a rapid rate.

The country there is mostly brush and redwood cut-over land with some non-merchantable timber of various kinds.

E. A. Cox and family motored over from Orrs Springs last Saturday.

Miss Lucile Fulwider, daughter of Mr. and Mrs. Lucien Fulwider, will teach music in the schools of Corcoran the coming year. The Fulwiders are now in Santa Rosa. The home was formerly in Willits.
